FROM: Christine Wong, Chief Financial Officer

SUBJECT: Investment Report for the Second Quarter Ended June 30, 2016

Attached is the quarterly investment report for the State Bar of California as of June 30, 2016. The report is presented in a format that conforms to the investment policy adopted by the Board of Governors in May 2005. As of the end of June, the market value of the State Bar's investment portfolio totaled \$145.5 million.

The time-weighted average rate of return of the investment portfolio for the reported quarter is 0.65%, compared to 0.27% in 2015. Actual investment earnings increased approximately 230.45% from \$137,265 at the second quarter in 2015 to \$453,597 in 2016. The increase in investment earnings is due to a larger investment portfolio after receiving the \$44.7 million settlement grant from Bank of America. The higher rate of return is due to investments in bonds with longer durations compared to the prior year.

The unrealized gain for the reporting quarter is \$78,654, which will be amortized over the life of the bonds. This unrealized gain will eventually offset the effect on investment income when the bonds mature. An unrealized gain is a bond discount incurred when a bond is purchased at a price less than its face value. A bond is traded at a discount when it offers a coupon rate that is below their prevailing interest rates, a reflection of rising interest rates in the existing bond market. This unrealized gain is considered to be a "paper gain" because all investments are held to maturity.
