

**PROPOSED AMENDMENTS TO
BUSINESS AND PROFESSIONS CODE SECTIONS 6046.7 AND 6060.7
08/18/2014 DRAFT**

B&P Code sec. 6046.7:

(a) Notwithstanding any other provision of law, the Committee of Bar Examiners will adopt rules for the regulation and oversight of law schools that are registered with the Committee and required to be authorized to operate as a business in California that are not approved by the American Bar Association or otherwise accredited by the Committee of Bar Examiners.

(b) The Committee of Bar Examiners will assess and collect a fee from registered law schools in an amount sufficient to fund the regulatory and oversight responsibilities imposed by this section. Nothing in this subdivision precludes the board of trustees from using other funds or fees collected by the State Bar or by the Committee of Bar Examiners to supplement the funding of the regulatory and oversight responsibilities imposed by this section with other funds.

B&P Code sec. 6060.7:

The Committee of Bar Examiners will be responsible for the approval, regulation, and oversight of all registered law schools that award the Juris Doctor (J.D.) professional degree in law. For purposes of this subsection, a registered law school may not award a J.D. degree unless a student has completed the necessary legal education set forth in Section 6060 of these rules that would qualify the student to take the California Bar Examination. A J.D. degree does not include and will not be denominated as any other degree or program of law study.

[Note: Section 94750 has been repealed and not replaced and is therefore no longer relevant to the interpretation or application of any subsection above.]
