STATE BAR OF CALIFORNIA 2015 STRATEGIC PLANNING GOALS & OBJECTIVES, & DRAFT MEASURES

In 2014-2015, under the leadership of the President and Vice-President of the State Bar, Craig Holden and Heather Rosing, the Board of Trustees focused on reinvigorating its strategic planning process and developing performance measures related to the Board's strategic plan - July 2015.

INTRODUCTION AND ACKNOWLEDGEMENTS

The State Bar of California ("State Bar"), a constitutional agency in the judicial branch of government, is committed to its mission of public protection. It is also committed to effectively and efficiently discharging its duties and providing high quality licensing, regulatory and disciplinary services that support the fair administration of justice in California. To meet these broad and vital responsibilities, the State Bar has committed to engaging in an ongoing strategic planning process that will help it meet its important public service goals and thereby create its desired future. The Board of Trustees adopted its Strategic Plan to guide its public protection mission and to put in place a comprehensive and ongoing planning process to support its responsibilities for improving the administration of justice.

In 2014-2015, under the leadership of the President and Vice-President of the State Bar, Craig Holden and Heather Rosing, the Board of Trustees focused on reinvigorating its strategic planning process and developing performance measures related to the Board's strategic plan adopted July 24, 2015. The Board of Trustees wishes to thank all members of the Board, past and present, State Bar staff and all who participated in the discussions and took the time to provide comments and suggestions that gave rise to the contents of this Strategic Plan.

The Board also wishes to acknowledge the professional assistance of Steven Sphar and Eileen Jacobowitz, for designing and conducting the Board's 2015 Strategic Work Session. They were instrumental in synthesizing the State Bar's initial planning session information and completing the final Strategic Plan, as well as assisting the Board in developing the performance measures for its plan.

THE MISSION OF THE STATE BAR

The State Bar, as an integral part of the justice system in California, has one Mission for the organization that steers all planning— protection of the public. It is statutorily delineated in Business & Professions Code section 6001.1:

Protection of the public shall be the highest priority for the State Bar of California and the board of trustees in exercising their licensing, regulatory, and disciplinary functions. Whenever the protection of the public is inconsistent with other interests sought to be promoted, the protection of the public shall be paramount.

Additionally, the State Bar engages in protection of the public through oversight of admissions and discipline of attorneys; and support for the professional development and practice of its attorney members.

The veto of the State Bar's funding in 1997 and the subsequent destruction of the State Bar's discipline system placed the public and the administration of justice at risk. The resurrection of the State Bar resulting from the Supreme Court order and appointment of a Special Master, Justice Elwood Lui, in *In Re Attorney Discipline* (19 Cal.4th 582) in 1998, and legislative amendments to the State Bar Act in 1999 and the resulted in significant changes to the strategic approach and operational goals of the State Bar and its then Board of Governors. Additionally, the 2009 veto of the State Bar fee bill by Governor Schwarzenegger, and the subsequent governance changes enacted through Senate Bill 163 challenged the State Bar to refocus itself as an institution with respect to its service to the public and the legal profession.

These changes, in compliance with the direction given by the Supreme Court's Special Master and the legislative mandates, have been implemented to ensure stable funding through the legislative process for future State Bar activities.

PAST AND CURRENT STRATEGIC PLANNING INITIATIVES

At its 2015 January 23-24 Planning Meeting, the Board of Trustees, State Bar staff and any members of the public who chose to participate began the discussion for producing draft strategic goals for the forthcoming 2016 Five-Year Strategic Plan. The draft goals developed at that January planning meeting were circulated for comment to the Trustees, staff working groups, and various State Bar stakeholders in order to further develop the goals and objectives. The plan was to bring back a near-finished list of goals and objectives to the Board Planning & Budget, and then the full Board, with an adoption target date for the Board meeting in July 2015.

In keeping with the policy-oriented focus of the Board, this in-process 2016 Strategic Plan will consist of high-level goals, objectives and measures, as required by statute. It will be the new Chief Executive Officer's task, once he or she is in place, to collaborate with staff to examine the implementation issues and proceed as appropriate, within existing resources, towards

development of the appropriate internal work/action plans to achieve the goals and objectives of the Strategic Plan.

Past Planning Initiatives

The initial impetus to undertake a comprehensive review of State Bar governance and to implement a participatory planning process patterned after the Executive and Judicial Branch model was former Special Master Elwood Lui's March 28, 2000, Final Report to the Supreme Court. Justice Lui noted that the Board of Governors "... should focus its energies on, and make decisions concerning, the overriding policy issues facing the State Bar." In a follow up letter, dated June 27, 2000, Justice Lui recommended that former State Bar President Andrew Guilford follow the example of the Judicial Council and engage an expert in governance and planning to assist the Board in this undertaking, a sentiment for which the Board expressed support and interest.

Toward this end, in August 2001, members of the then Board of Governors, specially invited guests, and State Bar Senior Executive Staff participated in a comprehensive, two-day strategic planning and organizational governance session. The results of that meeting included a new Board governance structure adopted by the Board on October 21, 2001, and the adoption of an *Interim Strategic Plan*. It was circulated for public comment, finalized, and adopted as the *Long-range Strategic Plan* in August 2002.

In 2004, the Board implemented two other suggestions from Justice Lui. First, to "re-articulate the mission and role of its Board of Governors and its executive staff," the Board adopted a "Lines of Authority" policy statement that clearly focuses the Board on its governing responsibilities and delegated to the Executive Director the responsibility for day-to-day organizational management. Secondly, a comprehensive compilation of previously adopted Board resolutions and policies pertaining to the operation of the Board of Governors (a stand-alone volume called the "Board Book") was adopted.

The Board's efforts and achievements in improving its planning and governance process were acknowledged during three annual meetings by the then Chief Justice of the California Supreme Court, as well as in the State Auditor's statutory 2005 bi-annual report.

The Board continued its efforts, however. To effectively allocate the State Bar's resources and justify its membership fees, the State Bar aligned its budgets with the results of its strategic planning process. Specifically, the 2008 Adopted Budget was redesigned to link the State Bar's budget with its strategic planning process. The budget was aligned with the State Bar's organizational and functional structures as defined by the State Bar's strategic plan and presented basic workload and performance information in the State Bar's major program areas.

The 2009 State Audit found that the recommendations in their 2007 audit report, which had focused on the State Bar's strategic planning, had been fully implemented. The audit stated that the State Auditor's recommendations had been met, including:

1. Completing revisions of the departmental plans that would serve to implement the Board of Governors' strategic goals and ensure that each departmental plan contains meaningful performance indicators.
2. Limiting performance measurement to indicators that can be accurately tracked on an ongoing basis and measure desired outcomes.
3. Ensuring that departments, during their departmental plan revision process, identify the objectives and performance measures that can be attained, considering existing resource levels and information technology capabilities.
4. Taking the steps necessary to ensure information technology systems can capture the required performance measurement data to support the projects needed to accomplish strategic-planning objectives, or devise alternative means of capturing this data.

Public Protection Mandate

In keeping with the new legislative mandate that public protection should be its first priority, the State Bar showed refocused energy in 2011. In the latter half of the year, the State Bar's new leadership sharpened its commitment to satisfying this public protection mandate, especially in the area of the attorney discipline system.

Improvements in public protection and effective resource management were evident in other areas of the State Bar as well. For example, in January 2012, the Bureau of State Audits reported that – for the first time in years – the State Bar had no unresolved audit issues. All of the Bureau's recommendations had been fully implemented.

Five-Year Strategic Plan

Effective January 1, 2012, SB 163 amended the State Bar Act, with the addition of Business and Professions code section 6140.12. The statute required that the renamed Board of "Trustees" complete and implement a five-year Strategic Plan, to be updated every two years. Following the legislation in 2012, an operationally-oriented five-year plan was crafted and submitted to the Legislature, and has been updated since that time. Many of the goals and initiatives in that plan have been accomplished or are well in process. Accordingly, the Board determined it was necessary to engage in a wholesale review and update of its Strategic Plan from the ground up to ensure focus on its mission and the many aspects of its critical public protection work from a policy perspective.

In 2012, when the Board adopted its first five-year Strategic Plan, the Board had laid out three large-scale initiatives that the State Bar would undertake to re-tool the organization for sustainable, lasting improvement by re-making key aspects of its organizational culture. It was

adopted by the Board of Trustees on February 10, 2012. That plan identified the State Bar's new fundamental mission of public protection, and set a goal of cultivating a high-performing public service culture at all levels of the organization. It also identified a number of priority policy areas for exploration and action. Examples included:

- Establishing new standards for education and practical skills training for new lawyers;
- Strengthening the regulation of California accredited law schools; and
- Finding ways to strengthen the legal services delivery system, including its funding sources.

The plan also identified three internal initiatives for those next five years:

- Modernizing State Bar information technology;
- Preserving and improving State Bar physical facilities; and
- Streamlining its programs and processes.

The Board annually holds a planning session to review the State Bar's progress in implementing its strategic plan and to consider and propose other measures to enhance its mission of public protection, including proposals to ensure access to justice and diversity in the justice system consistent with that mission.ⁱ

As required by statute, and as reported to the Supreme Court, the Governor, and the Assembly and Senate Committees on Judiciary last year, the Board of Trustees at its annual planning meeting in January 12, 2014, reviewed the State Bar's progress toward implementing the 2012 five-year Strategic Plan and approved important policy updates:

- It added, "Developing external relations in support of more proactive approaches to public protection," as a priority policy area;
- It also added, "Actively monitoring trends in the legal marketplace to identify regulatory changes needed to adequately protect the public," as another priority policy area; and
- It expanded the "operations re-engineering" initiative called for in the plan to a more comprehensive "organizational performance management" initiative.

These updates were a recognition of needs and opportunities that emerged since the original plan was adopted.

ⁱ As a result, the full Board, instead of only 7 members as the Governance in the Public Interest Task Force, participate in the development of the measures and recommendations under both sections 6001.2 and 6140.12 of the Business and Professions Code.

**State Bar of California
2015 Strategic Planning Process
Goals & Objectives**

Goal 4 – Collaboration with Government Stakeholders: Collaborate with stakeholders in the three branches of government to achieve the mission of public protection.

OBJECTIVES

- a. Coordinate communications from the State Bar to stakeholders in the three branches of Government, to ensure a unified voice and consistent message.
- b. Actively encourage and support member participation in bench-bar efforts to improve the administration of justice and access to the legal system.
- c. Ensure robust communications with the Supreme Court on the work and policy of the State Bar, and the timely implementation of all Supreme Court directives.
- d. Collaborate with the Legislature, through the legislative advocate and Trustee leadership, on legislation within the State Bar's purview and the statutory mandates to the organization.
- e. Collaborate with the Executive Branch, through the legislative advocate and Trustee leadership.
- f. Ensure regular reporting from the State Bar's legislative advocate and Trustee leadership to the Board or other designated contacts, to ensure the Board is apprised of significant developments with stakeholders in the three branches.

Goal 5 – Stewardship of Public Assets: Maintain and enhance existing assets and manage finances to ensure transparency, accountability and fiscal responsibility, and to ensure the long-term stability of the State Bar.

OBJECTIVES

- a. Develop and maintain a long-range Information Technology plan, with a focus on staffing, applications portfolio, and infrastructure.
- b. Develop and maintain a long-range physical asset management plan for State Bar real estate assets.
- c. Develop, refine and maintain financial accounting and reporting practices to ensure transparency.
- d. Develop records management practices to achieve transparent documentation of State Bar policies and transactions.
- e. Regularly examine the funds of the State Bar, and the policies regarding those funds, to ensure reasonable thresholds and an appropriate annual membership fee.

Goal 6 – Stewardship of State Bar Personnel: Maintain a transparent, effective, accountable, and cohesive Board and management team.

OBJECTIVES

- a. Ensure collaboration between the Board and management to achieve the State Bar’s mission and strategic planning goals.
- b. Conduct a meaningful annual appraisal of the CEO, Chief Trial Counsel, and General Counsel to ensure alignment of performance with the goals and objectives of the State Bar.
- c. Seek a level of staff compensation sufficient to ensure a stable and proficient workforce.
- d. Ensure that staff is utilized effectively and efficiently.
- e. Ensure that the Chief Executive Officer maintains a transparent and responsive relationship with the Board.
- f. Provide Board support to the Chief Executive Officer in ensuring a high level of interdepartmental collaboration, coordination, and information sharing.
- g. Ensure that the Chief Executive Officer engages in long-term succession planning for the organization.

Goal 7 – Communication with Attorneys: Engage attorneys in on-going dialogue to improve the quality and availability of legal services in California.

OBJECTIVES

- a. Conduct outreach to local bars and attorneys about the activities of the State Bar to encourage participation in the State Bar’s public protection activities.
- b. Encourage the professional development of new/young attorneys, including participation at the Annual Meeting and in public protection activities.

- c. Improve communications with section leaders through participation at the Council of State Bar Sections and other section meetings and events.
- d. Conduct outreach to attorneys through social media, the State Bar website, the California Bar Journal and electronic newsletters such as the Daily News Digest.

Goal 8 – Board Development: Maximize the skills of all Trustees to ensure effective regulation of attorneys, and cultivate the next generation of leaders focused on the organization’s mission.

OBJECTIVES

- a. Ensure that all Trustees are thoroughly oriented on the Board’s public protection mission, Strategic Plan, and governance model, with an emphasis on the admissions and discipline systems.
- b. Develop mechanisms to ensure continuity in the work and mandate of Board level committees from year to year.
- c. Devise annual assessment mechanisms for all Board level committees.
- d. Encourage Trustees to actively participate as Board liaisons to the Bar’s standing and special committees, commissions, and section executive committees.
- e. Develop future leadership by encouraging participation in State Bar standing and special committees, commissions, and section executive committees.
- f. Educate potential future leaders about the mission and governance structure of the State Bar.
- g. Further develop policies delineating lines of authority within the organization, to ensure stability.

Goal 9 – Access to Justice: Collaborate with other stakeholders to ensure California’s justice system is accessible to all.

OBJECTIVES

- a. Support efforts and provide programs to create adequate, stable funding for legal services.
- b. Coordinate and work with the Supreme Court and the judiciary with respect to achieving adequate, stable funding for California’s judicial system and related support services.
- c. Support efforts by other stakeholders and develop new initiatives to ensure affordable, high quality legal services equally accessible to all regardless of income and other barriers.
- d. Elimination of barriers that prevent people from understanding and exercising their rights and partnering with other stakeholders to provide education on this issue.

Goal 10 – Diversity and Inclusion: Strengthen our commitment to diversity and inclusion in the legal profession as part of our public protection mission.

OBJECTIVES

- a. Ensure diversity is integral to the focus on public protection, equal access, and quality and fairness of legal services.
- b. Monitor diversity in the legal profession in order to measure change over time.
- c. Partner with others working toward the goal of diversity in order to promote full and equal participation within the State Bar, the profession, and the judiciary.
- d. Develop initiatives to ensure that the legal profession reflects the rich diversity of the State population in a way that is equally accessible and free of bias.
- e. Create vehicles for ongoing communication to the profession and the public about the importance of diversity for the administration of justice and delivery of quality legal services.
- f. Work with sections, committees, and special entities to expand diversity of leadership and involvement through the State Bar appointments process and other programming.
