Subject: [NOBCmembers] [NOBC members] From California: Request for Information from Each State

NOBC Members,

California requests assistance in obtaining information from each state concerning:

1) Issue of nonlawyer limited practice:

- a. Whether a state presently has a form of a limited license legal technician program (a.k.a., LLLT program).
- b. If a state does not, then whether the state is studying or planning to implement such a program in the future.

2) Issue of nonlawyer ownership:

- a. Whether a state presently permits any form of nonlawyer ownership of a law practice (including nonlawyer ownership in an "alternative business structure;" or a "multi-disciplinary practice" context).
- b. If a state does not, then whether the state is studying or planning to implement changes in the law to allow such nonlawyer ownership in the future.

A simple "Yes" or "No" to each issue would be a helpful reply but, if the reply is "Yes," then links with additional information would be especially useful.

Ideally, it would be helpful to obtain responses by Tuesday (9/17), but we would be very appreciative of all input provided, even after that date.

We would also be willing to share the data collected with any interested states.

All information received is appreciated.

--
